17:00 closing reception

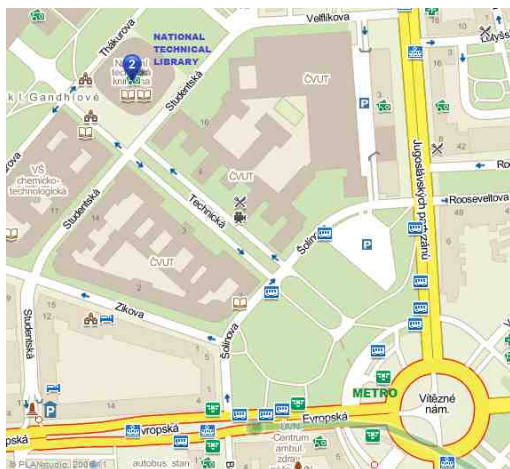

venue

National Technical Library is located at the crossing of Thákurova, Studentská and Technická streets and Fleming square. By public transport, the best way is to get to Dejvicka metro station (green line) and from there it is a few minute walk.

registration

No conference fee is charged, participants are asked to register at tranext.czp.cuni.cz before November 11th.

language

The conference will be held in English with simultaneous interpretation in Czech. Please indicate your request for headphones and receiver in registration form.

about the project

The project aims to provide a concise and scientifically sound methodology for quantification of external costs of transport in the Czech Republic. It builds upon a detailed bottom-up approach taking account of spatial, temporal and technology specific characteristics of land transport.

The project team consists of experts from Environment Center of Charles University in Prague, Transport Research Centre in Brno and SC&C.
